

SENIOR CIVIL ENGINEER JOB ANNOUNCEMENT!

Title: Senior Civil Engineer

Location: Billings, Montana

Brief Job Description: WWC has an immediate opening for a Senior Civil Engineer. The Senior Civil Engineer will lead and work directly with our engineering teams in developing, procuring, and executing projects in planning, geometric design, hydraulic and hydrologic design, water resources and irrigation projects, reservoir design and permitting, environmental permitting, geotechnical engineering, quantity schedules, bid packages, public interaction, preparation of plans and technical specifications, construction engineering, and/or other associated civil engineering activities as assigned. The Senior Civil Engineer will also be responsible for mentoring, tracking resources, and managing client relationships. Some travel is required, and you must have a valid driver's license.

Requirements: Bachelor of Science or Master of Science degree in Civil Engineering. Must be a Licensed Professional Engineer in Wyoming. 4-12 years of experience in Civil Engineering.

Compensation: Competitive salary and benefits negotiable based on experience. Benefit package includes generous holiday and personal time off; comp time; health, dental, and vision insurance; a 401K/profit sharing plan; and bonus potential.

Closing Date: Open until filled

Contact Information: Renea Parker, HR Generalist at rparker@wwcengineering.com

What information do applicants need to provide? Letter of interest and resume.
